

## REMARKS

Claims 13 and 14 are pending in this case and will remain pending upon entry of this Amendment.

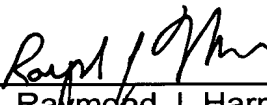

Claim 13 has been amended to permit substitution of the tetazole on the phenyl ring in the 3- or 4- position. The art cited by the Examiner is limited to the 2- position and does not anticipate the present invention. Support for this amendment to Claim 13 may be found, among other places, on page 7, lines 12-13 and 18-19 of the specification.

Applicants do not understand why Claim 14 was rejected by the Office Action, and request in any future Office Action that if a rejection of Claim 14 is maintained, that the Examiner explain in more detail why Claim 14 is being rejected.

Based on the foregoing amendments and remarks, Applicants respectfully request allowance of pending Claims 13 and 14.

Respectfully submitted,

By
